Approval and Promulgation of State Implementation Plan, Florida: Approval of Revisions to the Florida SIP

AGENCY: Environmental Protection

Agency (EPA).

ACTION: Proposed rule.

SUMMARY: On September 25, 1996, the Florida Department of Environmental Protection (FDEP) submitted revisions to the Florida State Implementation Plan (SIP) to: revise the gasoline tanker truck leak testing procedures by adopting by reference federal test methods; change the requirements to submit test results to the FDEP rather than the Florida Department of Agriculture and Consumer Services; and update the gasoline tanker truck leak test form. In the final rules section of this **Federal Register**, the EPA is approving the State of Florida's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial

revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: To be considered, comments on this proposed action must be received by August 20, 1997.
